Fort Wayne, Indiana 46802

Subject: Request for Information (Docket No. V-404-308-12-25)

Dear Mr. Schaper:

On August 16, 2012, the U.S. Environmental Protection Agency issued you a Request for Information, which you received on or before August 23, 2012. The Request for Information required you to respond within 30 days, i.e., by September 24, 2012. As of the date of this letter, this office has not received a response. This letter is not an extension of time, but rather to notify you that your response to this Request for Information is overdue and its submission to EPA continues to be required under Section 308 of the federal Clean Water Act (CWA). Your failure to comply with the requirements of Section 308, set out in the above referenced Request, may result in enforcement action under the authority of Section 309 of the CWA. Under Section 309, EPA has the authority to obtain injunctive relief and penalties to address violations of certain parts of the Act, including failures to comply with Section 308.

Another copy of the Request for Information is enclosed. Please submit the information requested in the accompanying document in a notarized statement certifying that all representations contained therein are true and accurate to the best of your knowledge and belief. You should exercise care to assure that responses are complete and accurate, since Section 309(c)(2) of the CWA provides for the imposition of criminal penalties where false information is knowingly provided to the Agency. This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1980, 44 U.S.C. § 3501 *et seq.*

In addition, you have not provided a response to our August 2, 2012, letter providing you an opportunity to voluntarily restore approximately one (1) acre of wetlands filled without authorization under Section 404 of the CWA. You had agreed to provide us a response by September 14, 2012. In subsequent telephone conversations, you informed me that you have employed an environmental consultant to analyze your property and, pending receipt of your consultant's analysis, are still intending to respond. You are forewarned that we cannot wait indefinitely for your response and we may need to initiate formal enforcement measures to achieve compliance.

If you have any questions, please contact me at 312/886-0124.

Sincerely,

Gregory T. Carlson, Enforcement Officer  
Watersheds and Wetlands Branch
